MR. ZEE'S RESOURCES

Start here

A Christmas Carol | Illustrated Anki flashcards

Your download: the full deck has 60 cards in six topics. The free sampler has six cards. Follow the same steps for either version.

1. Get the correct app

Your device	App	Cost
Computer	Anki Desktop	Free
Android / Xiaomi	AnkiDroid Flashcards	Free
iPhone / iPad	AnkiMobile Flashcards	Paid separately

Find the official app for your device at **apps.ankiweb.net**. Check the current iPhone/iPad app price before purchasing.

2. Open your deck

Download and unzip your purchase. Find the file ending in **.apkg**. If you downloaded the sampler .apkg directly, no unzipping is needed.

Computer: open Anki, choose **File > Import**, select the .apkg file and confirm.
Phone: tap the .apkg file and open/share it with your Anki app. If needed, choose **Import** inside the app.

3. Start revising

Full deck: open **Mr Zees - A Christmas Carol** to study across the collection. Expand it and choose a topic, such as **Characters**, to focus on that section.
Sampler: open the **Free Sampler** deck and start revising.

Think of your answer, press **Show Answer**, then rate your recall:
Again: incorrect or forgotten. **Hard:** correct but difficult.
Good: correct with effort. **Easy:** correct and effortless.

Seeing 20 cards? That is today's new-card allowance, not the total. The full deck includes all 60 cards. On desktop, use **Browse > select the deck > Preview** to inspect them.

Phone tip: portrait is recommended; landscape may need scrolling.
Using two devices? Sign into the same AnkiWeb account and sync each app.
Need help? Use the contact details on your purchase receipt.
